Subject: FW: protocol

Here is a copy of the protocol that we used for our subjective odor evaluation testing at P&K. I will send by courier the exact protocol that P&K used for the recruitment/evaluation portion of their part in the testing. In addition, I am sending a copy of the reports that show the results from the evaluators rating the rooms and t-shirts on acceptability , smoke odor intensity and amount of odor (other than smoke odor). I was unable to locate the report form the PMUSA 2001 study, but have asked Candace to send you a copy as she was the one that analyzed the actual data. Please let me know if I can be of any other assistance.
